

IN THE CLAIMS

1. (Cancelled)
2. (Previously Presented) The method according to claim 10 wherein a pharmaceutical composition further comprising zinc (Zn) is administered.
3. (Currently Amended) The method according to claim 10 wherein ~~wherein~~ a pharmaceutical composition further comprising manganese (Mn) is administered.
4. (Previously Presented) The method according to claim 10 wherein a pharmaceutical composition comprising:
 - a) 2 - 5 g of each of L-serine and L-isoleucine,
 - b) 0.5 - 6 mg of each of chromium (Cr), tin (Sn), selenium (Se), vanadium (V) and wolfram (W) salts, and
 - c) 1 - 2 mg of folic acid:is administered.
5. (Previously Presented) The method according to claim 10 wherein a pharmaceutical composition further comprising neurogenic lipids is administered.
6. (Previously Presented) The method according to claim 10 wherein the composition to be administered is in powder form.
7. (Previously Presented) The method according to claim 10 wherein said composition is administered as a dietary supplementation composition.
8. (Cancel)
9. (Cancel)
10. (Currently Amended)) Method of treating ~~or preventing~~ psoriasis, wherein pharmaceutically active amounts of:
 - a) L-amino acids serine (Ser) and isoleucine (Ile),
 - b) trace elements chromium (Cr), tin (Sn), selenium (Se), vanadium (V), and wolfram (W), and optionally zinc (Zn), and
 - c) folic acidare administered orally to a subject in need thereof.

11. (New) Method of preventing an outbreak of psoriasis wherein pharmaceutically active amounts of:

a) L-amino acids serine (Ser) and isoleucine (Ile),

b) trace elements chromium (Cr), tin (Sn), selenium (Se), vanadium (V), and wolfram (W), and

c) folic acid

are administered orally to a subject in need thereof.
